## EXPERIENCE

### HIGHLIGHTED PERSONAL PROJECTS

#### Full-stack Web Developer

Remote  
may, 2022 – Present

[Pokedex](#) – Users can search for different types of pokemon in a list and can see a brief description of it. At the same time, it will change the background of the pokemon depending on the type

- Built with: JavaScript | HTML | CSS | webpack | API's

[Math-magicians](#) – Users can use a calculator and do basic mathematical operations and change pages to see different kinds of quotes

- Built with: React | JavaScript | CSS | HTML | API's

[Bike Rentals](#) – The user can log in/sign up on the page. After successfully logging in to the page they can now see a list of bikes they can rent adding the start date, end date, location, and a specific motorcycle, this can be done by clicking the bike itself or by going to the reservations page itself where they can choose them by names

- Built with: Ruby | Ruby on Rails | Rspec | React | JavaScript | CSS | API's | Gems

### MICROVERSE

#### Mentor (Volunteer)

Remote  
June 2022 – August 2022

- Mentored junior web developers, providing technical support through code reviews
- Proposed improvements to code organization to improve code quality and overall performance
- Provided advice and tips on how to maintain motivation to maintain longevity in the program

### MICROVERSE Self-employed

#### Full-stack Web Developer

May 2022 – Present

- Build different projects which solve real-life problems.
- Connect and manage a group of several people from different parts of the world.

## EDUCATION

### MICROVERSE

#### Remote Full-stack Web Development Program, Full Time

May, 2022 – Present

- Spend 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux
- Develop skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers
